```php
<?php

class timelineDate {

    public $title = '';
    public $startDate;
    public $endDate;

    function __construct() {

        $this -> title = '';
        $this -> startDate = null;
        $this -> endDate = null;

    }

    public function getTitle() {
        return $this -> title;
    }

    public function getStartDate() {
        return $this -> startDate;
    }

    public function getEndDate() {
        return $this -> endDate;
    }

    public function setTitle($title) {
        $this -> title = $title;
        return $this;
    }

    public function setStartDate($startDate) {
        $this -> startDate = $startDate;
        return $this;
    }

    public function setEndDate($endDate) {
        $this -> endDate = $endDate;
        return $this;
    }

}

?>
```
